10.	M I M					

Michael V. Meller Primary Examiner Art Unit: 1654 Continuation of 5. does NOT place the application in condition for allowance because: of the reasons of record. Applicant argues that the figures and grapgs in them show unexpected results but all they show are the same results with or without the claimed ingredients together. In other words, it does not matter according to the graphs whether you have the claimed components together or not. All of the graphs show the same level there is no difference in levels with or without the climed ingredients in them.
